CHRISS GEORGE

Software Engineer | Python Full Stack Developer

+917558843749 chrissgeorgek@gmail.com *Portfolio* chrissgeorge chrissgeorgek Pathanamthitta, India

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience developing scalable web applications using Python, Django, Django **REST Framework**, React.js, and PostgreSQL. Skilled in designing and developing RESTful APIs, JWT authentication, role-based access control, CRUD operations, and real-time communication using **WebSockets** and **Redis**. Experienced in building responsive frontend interfaces and deploying full-stack applications using Vercel and Render. Strong understanding of object-oriented programming, database management, Git, Docker, and software development best practices, with a focus on writing clean, maintainable, and efficient code.

SKILLS

Programming Languages: Python, JavaScript, HTML5, CSS3

Frontend: React.js, Bootstrap, Tailwind CSS, Vite

Backend: Django, Django REST Framework, Node.js (Basics), Express.js (Basics)

Databases: PostgreSQL, MySQL, SQLite

Tools & Platforms: Git, GitHub, Docker, Redis, Postman, VS Code, AWS (Basics)

Concepts: REST APIs, JWT Authentication, Role-Based Access Control (RBAC), WebSockets, Django Channels, CRUD Operations, Object-Oriented Programming (OOP), Responsive Web Design

EXPERIENCE

Full-Stack Software Engineer

Apr 2026 - June 2026
On-site•Changanasserry

Etome Works Ltd

- Developed a full-stack role-based EdTech platform using React.js, Django REST Framework, and PostgreSQL to support Students, Teachers, and Administrators.
- Designed and implemented RESTful APIs with JWT-based authentication and role-based access control (RBAC) for secure user and application management.
- Implemented real-time communication using Django Channels, WebSockets, and Redis for interactive user-to-user messaging.
- Developed core LMS features, course workflows, community functionality, and administrative dashboards to streamline academic management.
- Optimized backend operations using Django ORM and PostgreSQL, improving data management and application performance.
- Built responsive and user-friendly interfaces with React.js, ensuring consistent functionality across desktop and mobile devices.

Technologies / Skills Used:*Django REST Framework, React.js, Django Channels, WebSockets, Redis, JWT, PostgreSQL*

Software Developer

May 2025 - March 2026
On-site•kottayam

IPSR Solutions Limited

- Developed a role-based Training Management System using Django and PostgreSQL to manage training operations for 60+ users across Admin, Faculty, and Student roles.
- Implemented role-based access control to provide secure and customized functionality for different user roles.
- Developed modules for candidate registration, batch allocation, faculty assignment, attendance tracking, and daily activity management.
- Implemented CRUD operations using Django ORM for efficient management of training and user data.
- Built attendance and reporting features to simplify monitoring of student participation and training progress.
- Improved application usability by designing responsive interfaces and streamlined workflows for administrative and academic operations.

Technologies / Skills Used:*Django, PostgreSQL*

CERTIFICATIONS

- *NPTEL – Cloud Computing and Distributed Systems*
- *Google – Fundamentals of Digital Marketing*
- *Reuters – Introduction to Digital Journalism*

PROJECT HIGHLIGHTS

Portfolio Management System (CMS) | Github

React.js | Django REST Framework | Tailwind CSS | SQLite/PostgreSQL | JWT | Vercel | Render

- *Developed a full-stack portfolio website with a custom Content Management System (CMS) for dynamic portfolio management.*
- *Implemented secure JWT authentication with a protected admin dashboard and role-based access to manage portfolio content.*
- *Built complete CRUD modules for Hero, Skills, Projects, Experience, Education, Certificates, and Contact Messages.*
- *Developed RESTful APIs using Django REST Framework and integrated them with a React frontend using Axios.*
- *Implemented image upload and media management, built a responsive UI using React, Tailwind CSS, and Framer Motion, integrated a contact form with Django REST APIs, and deployed the application using Vercel (Frontend) and Render (Backend).*

SAHA Learning Platform | Github

April 2026 - June 2026

Lead Developer

- Developed a full-stack role-based EdTech platform using React.js, Django REST Framework, PostgreSQL, Redis, and JWT.
- *Implemented JWT authentication, RBAC, REST APIs, and real-time chat using Django Channels and WebSockets.*
- *Built LMS modules, community features, and admin dashboards for Students, Teachers, and Admins.*
- *Designed scalable PostgreSQL data models and optimized backend APIs for secure, high-performance application workflows.*

***Technologies / Tools Used**:React.js, Django REST Framework, PostgreSQL, Redis, WebSockets, JWT*

Training Management

June 2025 - Jan 2026

Individual Project

- *Developed a Training Management System using Django and PostgreSQL, serving 60+ users.*
- *Implemented role-based access control for Admin, Faculty, and Student users.*
- *Built attendance management, batch allocation, and activity tracking modules.*
- *Developed and optimized CRUD operations using Django ORM and PostgreSQL.*

***Technologies / Tools Used:**Django, PostgreSQL, HTML*

AWARDS & ACHIEVEMENTS

- *1st Prize – CodeFix Arena 001*
- *2nd Prize – Hackathon*
- *Active National Service Scheme (NSS) Volunteer during Higher Secondary School and College.*
- *Attended TEDxKCMT 2019 at Kristu Jyoti College of Management and Technology.*
- *Participated in Short-Term Training Programme (STTP) on Amazon Web Services (AWS).*

EDUCATION

Kristu Jyoti College of Management and Technology|Changanasserry
Master of Computer Applications
2022 - 2024

Kristu Jyoti College of Management and Technology|Changanasserry
Bachelor of Computer Applications
2019 - 2022
